

मानात नाचते मराठी

Testimonials from the Show at Washington DC

We are in the USA for last thirty two years (have lived in different cities). We haven't ever seen any thing like 'manaat naachate marathi'. It is by far the best show we have ever seen. Outstanding teamwork!

Every participant deserved kudos for their effort, enthusiasm and talent. Never did the program lose its momentum since its strong beginning - the involvement of every dancer/ performer was visible. Add to that the colorful stage, costumes, light-effects and the ambience - all in all a thrilling show, way above expectations.

"MNM is good enough to be in Kennedy Center!"

My kids participated in mannat naachate marathi. One is a teenager and the elder in his mid twenties. I always used to wonder whether they will carry our marathi culture forward. Watching them perform in MNM – mi dhanya zale. Tumha sagaLyanna shatahaha dhanyawaad.

I invited people from our office; Bolavlyawar mala guilty watla because most of them are non - Maharashtrians. I thought bolavlay mhanun yetila and would end up getting bored karan kahich kalat nahiye. But they came and they were really, really impressed. They are all Telegus and members of the Telegu Association . Tyanchi member strength is double our (Mandal); but they said our program was by far "THE BEST" of what they had seen here. They mentioned they never had such a grand program with so much enthusiasm and from people of all ages.

We were visiting Washington, DC area and attended 'mannat naachate marathi' with our local friends. And what a fantastic program it was.

The show was an impressive presentation. The stunning and spectacular light effects, glorious backdrops for a beautifully choreographed show were appreciated by one and all.

All participants have put in lot of efforts.... kudos to each person.
